

What kind of person do you want to lead Seattle City Light?

As a City Light customer, you are an owner of one of America's, largest publicly owned utilities. For 100 years, City Light has put the interests of its customer-owners first. City Light needs your help in finding a new leader to take the utility on its journey into the next 100 years.

**We'd like your help in finding the right person to lead City Light. What are the job experiences that should be in that person's background?
What are the directions the new leader should take on our behalf?**

**Come to the Superintendent Selection Public Hearing
and share your thoughts.**

THURSDAY, JUNE 26, 2003
